

DEPARTMENTS

making their maiden voyage. **Bon Voyage Pete.**

We are glad to hear that **Ron "Smoky" Hurst** (Pumpman) enjoyed his holiday at Casino.

Wally Brooks (Chamber Attendant) and a friend caught 400 bream in three nights while up the coast. The boys want to know what size net Wal.

We were all sad to hear of the passing on of **William Henry** who for years worked in our Acid Plant.

CEMENT PLANT

Jack Ott has purchased a horse. If successful, it will be entered for the Newcastle Cup. Remember its name "Black Prince," and watch this column for the latest information.

Ronald Wright has been ill for a while. Despite this handicap, he bobbed up and fittingly performed his fatherly privilege of giving his daughter Wynifred away. The wedding took place at the C. of E. Boolaroo, and the bride was favoured with a beautiful day. Best wishes to Mr. and Mrs. John Taylor.

Eck Burgin will now be established in the Electrical Department having accepted a transfer thereto. More leisure hours for bowls seems to be the motive—good luck Eck.

Wal Green has taken to shunting like a duck to water. We'll be lucky to get him back!

Ted Disney hasn't reported any fishing scores for this month—must have forgotten.

Selwyn Lewis is showing a lot of interest in Bowling Clubs. We're not just sure whether its bowls or any other of the amenities is the attraction.

George Barnier recently injured his left leg at home. Occurring at the beginning of his roster, it left him incapacitated for the full seven days. Wouldn't it!

Geo Skelton is now on three month's long service leave. We will expect to see him at least a stone heavier and feeling exceptionally fit.

BUILDING DEPARTMENT

On holidays at the moment are **Arch Ebbeck** and his wife seeing the sights at Katoomba.

Mick Kedwell is at Forster with Mrs. Kedwell. We heard that quite a considerable amount of "Silver Ba't" was taken with them for the fish.

Mark Wilson has returned looking fit after his holidays spent at Bega.

Ray Fitzpatrick is doing his training with the Artillery for a couple of

LITERARY AND PHOTOGRAPHIC COMPETITION.

Two first class entries have been received for the Literary Competition. Not many, but we admit the subject was not an easy one and the length perhaps a little long. Details will be given next month. Unfortunately no entries have been received for the photographic competition.

weeks. We hope he hits the target.

TIME STUDY DEPARTMENT

Our Time Study Officer, **John Thomas**, returned safely and in one piece after a visit to the mines at Broken Hill.

We are happy to welcome two friends from Broken Hill in **Harold "Bro" Walkley** and **John O'Sullivan** who will be staying with us for a couple of months. Harold and John have been selected for training in time and motion study work and have recently completed a training course with I.C.I., Melbourne. At the moment they are working diligently on planned maintenance. John with **Ross Menzies** at the Cement Plant, and Harold with **Andy Thomson** at the Fertilizer Plant. We sincerely hope their stay with us will be both profitable and enjoyable.

PROTECTIVE FOOTWEAR."
