

# DEPARTMENTS

**Bob Forster's** motor-boat has come in handy. Bob has been very successful amongst the tailer in the lake.

The tale of the tailer and **Ray James**. Ray ate that much tailer, tails and all, that it became necessary for him to visit his tailor.

Can you beat this? **Bob Forster** hooked a fish in the eye but the fish got away leaving its eye-ball on the hook. A fortnight later, whilst visiting **Tuncurry**, 90 miles away, **Vic Guest** caught a one-eyed fish.

## ACID

by "Weak Vitriol"

Dave C. said "Clean the windows," "When on paper" they cried, "make it official."

Ron H. said "paint the 'ole place." "Proper notice," they cried, "make it official."

"Housekeeping," said the T.S.O., "Put it in writing," they cried, "make it official."

Now our Jerry gets a badge so bright  
Marked in big letters, black and white,  
"OFFICIAL" it said for all to see  
I'll play a joke on our Benny.  
He gets John R. to sign the screed  
For the boys to see and take heed,  
Our Benny reads that it's official  
And wears the badge to blow the  
whistle.

## LABORATORY

Saw **Doc Fischer** limping around and we wondered why professional knowledge hadn't corrected his fallen arches.

We wouldn't be surprised to see **Mr. "Mac" McDonnell** interested in a motor-boat. He's certainly motor-minded and has a car, cycle and lawnmower, all motorised.

As indicated previously **Jack Simpson** contemplated buying a late model car. His latest acquisition is a 1952 Consul.

We regret losing **Colin Bay** and wish him well in his new sphere of activity.

**Fred Hughes** arrived at work on pay-Friday complete with car and trailer. Must have been expecting a rise Fred, but surely not a trailer full?

## ELECTRICAL

by "Cy"

During the Easter holidays our boys spread out over all points of the compass. **Harold McGovern** hearing "there's gold in them there hills" hastened off to fossick around Mudgee, Como and Hargraves, but returned without success.

To Etons Lookout went **Mr. George Brailey** and family—the view is of the coast line from **Norah Head** to **Morna Point**.

**Eck Burgin** included Bathurst and Orange in his itinerary, stopping over to see **L. Davison** in his Ferrari win the "Bathurst 100 hrs. highest speed recording" at 147.4 miles per hour.

Another to visit Bathurst for the motor-races was **Arthur Appleby** who forsook "bowls" to go along.

Fully occupied at home was **Arthur Dennett** to whom we offer congratulations on the success of the Speers Point Midget Marching girls. Arthur's daughter, **Denise**, is leader of this team.

## MAIN OFFICE

**Brian Gesell** has gone on holidays before returning to hard work from National Service. Seems he needs to recuperate after his spell with the Army.

Noticed **Dennis Martin** displaying some of his prints; the photographic bug has bitten him again.

There's nothing like combining business with pleasure. Is this what **Owen Lewis** does when representing Sulphide at the Sydney Royal Show?

**Reg. Gibson** has strong loyalties. Although he retired early in the year from active cricket, Reg. took the
