

AROUND THE

ACID

In last issue we mentioned that **Bert Masters'** two daughters were appearing in a production of "A Midsummer Night's Dream"—now we learn that the younger of these, Margaret, has been awarded a scholarship in Dramatic Art.....Hearty Congratulations.

Excited preparations are going on at **Bob Chedzey's** home for daughter Kay's marriage to Warren Magin in August.....The best of best wishes from all the boys at the Acid Plant.

Frank Storey recently surprised most of us in this section of the Works by quietly announcing that he had become the proud father of a bouncing baby girl. Frank has just returned from holidays and we extend hearty congratulations to him and Mrs. Storey.

With No. 2 Chamber Unit now back in production we have with us once again as operators **Dick Coles, Pat Youngberry, Jack Dillon** and **Harry Esler**.....Working as holiday relief for Pat and Harry recently were **Jack Youngberry** and **Taff Watson**.

Another welcome-back is to **Bob Thornton**, who has once again assumed duties at the Ammonia Plant.

Maybe **Jack Lee** had better employ a guide when backing his car out of the garage in future! He took both gates with him when driving out one night recently.

Another proud "Poppa" hereabouts is **Dave Crawford**, whose wife recently presented him with their fourth son. Hearty congratulations.

TRAFFIC AND YARD

Farewell and best wishes to **Emil Wuolanne**, who after nine years in Australia, has decided to pack up and return to his native Finland in order to see how things are progressing in that country.....Before he left here Emil intimated that it was not his intention to stay there permanently but to return here once again.....We, for our part, sincerely trust that

this is so and hope to renew acquaintances with him again one day.

Taking over Emil's chores we have ex-shunter **Bob Greig**. Bob is now settling in to his new duties and we wish him well for the future.

THANKS

I wish to thank Sister Connor and Dr. Rundle for their prompt attention and care, for telephone calls and also all my workmates who kindly assisted me in any way at the time of my accident, and to those who visited me at my home. Thank you.

Walter H. Bull.

BUILDING

Mick Kedwell had an unfortunate entanglement with a power mower at home recently and came off second best—sustaining a cut in his foot which necessitated four stitches.....You'd better stop the motor before picking anything up off the lawn in future Mick!

Another to suffer troubles was **Jack Kerr**, who had the windscreen of his car shattered by a stone thrown up by a car which flew past him.....

We understand that this was the second motoring mishap which befell Jack in recent weeks. The first necessitated some bodywork repairs, but we have no details as to the cause.Straying horses again Jack?

In the exciting closing stages of the recent rugby league match at New Lambton Oval, when Wests went down

IF YOU MUST GO TO HOSPITAL
