

## RESEARCH REPORT

(Continued)

defeating leading teams and pressing others!

Wonder what **Jack Abbott's** topic of conversation is going to be now that Vivian's Charm has forsaken the greyhound racetracks for stud duties?

**Maurice Dann** arrived back from his Asian jaunt with plenty of stories and praise for the holiday travelling arrangements.

(A report by Maurice on his holiday will appear in our next issue. — Ed.)

## TOPS IN FINAL YEAR

**Congratulations to Mrs. Pam Waller (Analytical Chemist - Main Lab.),** who was notified recently that she had topped the Final Year of the Chemistry Certificate Course at Newcastle Technical College in 1971. Pam (pictured) is a daughter of Personnel Manager, Jack Thomas.

**The Smelting section of the Works is not the only area to the fore insofar as soccer challenges go.**

A short time back two games were contested between staff teams from the **Production Office** and the **Main Office**.

The first of these games was played at Cardiff Soccer Club's ground and resulted in a win for Production 2-1.

Following this the M.O. boys challenged Production to another match, but strongly insisted that, on this occasion, the "oldies" making up the Production team could have no more than the regulation 11 men on the field at the one time!

Hence the second challenge, played a Tulkaba Park, Teralba, with umpire, **MR. R. Still**, demanding that, on this occasion, proper procedures be followed.

This hard line on the rules of the game told against the "oldies", who ran out of steam, and Main Office were victorious 2-1, thus squaring the series.

When asked about a "decider", a spokesman for Production said **"Definitely not! No deciding game for us!"**

The heading picture shows action during the first match. How about that perfect Australian Rules movement with the ball of Production's goalie, **Brian Tozer**!

Underneath it are the rival captains, **Bill Smith (Production)** left, and **Bob Hobson (Main Office)** right. They are separated by **Bill Hale (Production)**.

### MR. W. L. POWER

The death occurred on 31st July, 1972, of **Mr. Lloyd Power** who was the Manager for **F. H. Booth & Son Pty. Ltd.**, our Metal Agents and Distributors in the Sydney area.

**Lloyd Power** was a close personal friend and a respected colleague of many of our staff and, through his long association with a broad cross-section of industry in Sydney, also numbered many of that city's business leaders amongst his close acquaintances. A gentleman of absolute integrity, strength of character and great business experience — these qualities coupled with a kind and friendly demeanour made **Lloyd Power** a valued associate of all who knew him.

**Lloyd Power's** passing will be keenly felt by many, and we at **Sulphide Corporation** offer our sympathy to his widow, **Mrs. Ruby Power**, and to their family who so ably and courageously supported him through his long and extremely difficult final illness.

**VALE — LLOYD POWER.**
