

# WEDDING PRESENTATIONS

When Paul Rowarth (Acid Dept.) was married a while back his workmates did not have time to organise one of their usual wedding presentations. So, on 4th May, they held what could perhaps be termed a "post wedding presentation" when they gathered for the presentation by George Chalmers (right).

A smiling LES HORN (above), acknowledges the wedding presentation he received from his workmates in the Boilermaking Dept. prior to his marriage on Saturday, 14th April.

Mr. Editor,

If I may be so bold, I would like to wish all Sulphide personnel the very best of luck.

By the time this is in print I will be enjoying the cruise and looking forward to the English summer.

The natives of the "Old Dart" will be saying, "there goes 'Aussie John'" . . . which will be a change from, "John the Pom"!

Sincerely Yours,  
John Martin.

Right, Centre: John Martin (third from left) pictured with Metallurgical Dept. friends, Ken Ferguson, Ian McKenzie and Ian Robbie, before departing for "home". Maybe we'll see John back here one day.

Bonnie John has gone away . . . Will he nay come back again?

Best Wishes, Jenny . . .

Jenny Scully (Commercial Dept.), was another to be farewelled, before her departure on 27th April . . . Jenny, who is to embark on the far more exacting career of motherhood, had been with us for a little over three years. The picture (Right) shows her being farewelled by, George Hamilton, who made a presentation to her.

We now have the good news that Jenny's baby arrived on 19th June and — its a boy (Matthew Paul)!
