

# NEW FACES — Welcome To Sulphide

Glenn Burgin, fitting, is fifteen and comes from Fennel Bay. Glenn sails competitively in a Flying Ant, two-man boat with the Toronto Sailing Club.

Scott Coleman, electrical, is sixteen and attended Warners Bay High School. Scott is also a sailor, having competed at the State and Australian titles. He enjoys most water sports and plays squash.

David Colley, fitting, is sixteen and completed Year 10 at Belmont High School. David surfs most weekends and also enjoys trike riding at Stockton Beach.

Gregory Constable, electrical, is sixteen and comes from Rathmines. Greg is presently restoring a car with his father which he hopes to drive to work when he gets his licence in June.

Matthew Creely, boilermaking, is sixteen and attended Glendale High School. Matthew enjoys the outdoors, shooting, camping and fishing. He also collects old bottles, his prize piece being a 'Torpedo' which is over one hundred years old.

Scott Gerrish, boilermaking, completed a pre-apprenticeship course at Cessnock TAFE. Scott is seventeen and enjoys surfing and making model cars. Scott also plays soccer and was a member of the State Champion side, Hunter District.

Stephen Hennessey, electrical, is sixteen and completed Year 10 at Booragul High School. Stephen is an active young man playing squash, table tennis, soccer and indoor cricket.

Justin Herbert, fitting, is sixteen and lives at Edgeworth. He has taken an interest in dog breeding and hopes to mate his first breeding dog, a Ridgeback, in a year or so. Justin is also an avid surfer.

Mark Lister, fitting, is sixteen and completed Year 10 at Toronto High School. He is an avid surfer and takes pleasure in repairing his own surfboard and those of his mates. Mark is hoping to build a surfboard from scratch one day.

Matthew Mott, boilermaking, is sixteen and comes from Barnsley. Matthew is also restoring a car with help from his father and brother. He will drive it to work when he gets his licence. In his spare time Matthew also enjoys trail bike riding with his friends.

Cameron Smith, electrical, is sixteen and attended Cardiff High School. Cameron is a newcomer to the game of golf, playing off a handicap of twenty-seven. Perhaps we might see Cameron playing at the next Sulphide Golf Day.

Alister Grimes transferred from Bougainville Copper to ATD as a Senior Metallurgist. He was originally from Hamilton in Victoria and now lives at Cardiff. Alister enjoys playing the odd game of tennis.

Tim Gearing comes from Blackalls Park and has commenced as a Technical Officer with ATD. Tim is an active man, interested in golf, tennis, swimming, scuba diving and cricket. He is married with two children.

Paul Jakobs is a Draughtsman at ATD and has worked on the site for several years with a contracting firm. Paul was originally from Germany, but has lived in Australia for over years.

Geoff MacFarlane commenced as a trainee chemist with ATD having completed his HSC at Morisset High School. Geoff is the son of Barry MacFarlane, who is presently heading up the new Matman System.

John Malone Transferred to ATD from BHAS, Port Pirie as a Senior Metallurgist. John's bride, Anne, also commenced with CRA ATD as a Chemical Analyst. They were married only about a week before coming to Newcastle.
