

1987 IN REVIEW

GYMNASIUM OPENING

What a tremendous innovation by employees of the Sulphide Corporation. The Sulphide Employees' Recreation Club, particularly members of the Gymnasium Committee worked hard during 1987 to enable a Gymnasium to be established on site. Support from management was necessary for this achievement to eventuate. The Company provided over \$50,000 to relocate Company records and transform 'Gospel Hall' into a Gymnasium. This assistance, administrative as well as financial, has continued after the Gymnasium was opened. Special thanks is due also to CRA ATD for providing \$10,000 to purchase equipment. When the Gymnasium was officially opened by Peter Leane on 30 November there was an initial membership of over 250 employees, and this figure is growing every day.

LONG SERVICE AWARDS

One of the highlights of any year is the Long Service Award function, and 1987 was no exception. Ten recipients were presented with awards at a function which was attended by sixty-six friends and special guests. It was a splendid evening enjoyed by all who attended. Geoff Billard, our Managing Director, spoke of the rarity of long service in modern times and of his hopefulness for a brighter future for Australian industry if we learn to overcome the present difficult times.

SOCIAL ACTIVITIES

Sulphide employees enjoy social activities, joining together to play team sports such as outdoor cricket, indoor cricket and soccer.

As usual, Picnic Day was an outstanding success. Employees and their families turned out for an exciting day filled with friendly rivalry and relaxation. Over one thousand people attended this year's Picnic, which boasted more rides and competition than previous years.

The Sulphide Golf Day has now become an annual event enjoyed by not only employees from all departments, but also by several retirees.
